USB-ADP Information

USB-ADP Single channel composite (+ S-video) and stereo audio to PC computer adapter for recording. This unit is 'plug & play' compatible with ALL of our cameras and wireless receivers. Also compatible with most PC computers and consumer television sets (those with standard composite RCA / BNC video inputs). Software and adapter plugs included.

Profile:

This has a whole set of unique purposes including video conferencing and amateur digital moviemaking with normal cameras or camcorders.

Does make an easy way to archive security or hobby/ project video clips onto PC playback clips from security DVRs directly onto PC digital media, though there will be an additional 'step' down in the recompression.

Common Applications:

- Exporting short clips from DVRs or cameras
